# 1. Introduction

"Tata Motors iRA" skill for Amazon Alexa enhances the customer experience by providing hands-free, voice-activated access to a wide range of car features from the comfort of your home.

Using this skill, you can effortlessly check your car's door status, distance to empty, odometer readings, interior temperature, lock or unlock your car, turn on or off your car's engine, AC, lamps and more.

Invocation Name – Tata

## 1.a. Prerequisites

- The user should have a valid Amazon account.
- Amazon Alexa app should be installed on the user's device with the Amazon account logged in.
- The user should have set up a Voice PIN and Voice ID in the Amazon Alexa app to execute remote commands.
- The user should have an active subscription to Tata Motors iRA 2.0.
- The user's vehicle must support the "Tata Motors iRA Skill" for Amazon Alexa feature.
- For all services to function properly, the vehicle and Alexa voice assistant should be in areas with good internet and network connectivity.
- Submitting too many consecutive commands through Alexa may result in a failed operation. Before making a new request, please wait until you receive confirmation of the ongoing request.
- This Skill works only in India.
- The Skill is available only in English (IN) and Hindi (IN).

## 1.b. Supported Vehicles

- Tata Harrier: Fearless + Red Dark, Fearless + Matte, Fearless + Matte (O)
- Tata Safari: Accomplished + Red Dark, Accomplished + Matte, Accomplished + Matte (O)

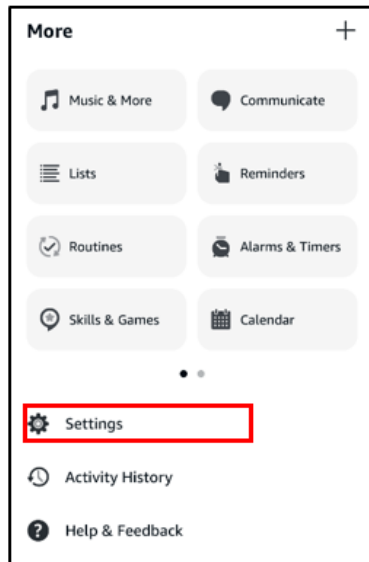

If your Tata Motors vehicle supports the Tata Motors iRA skill for Amazon Alexa, you will find the 'In-home Alexa' option within the Settings menu of your car's Tata Motors iRA 2.0 application. For any queries, please contact the Tata Motors Limited iRA support team via email at [irasupport@tatamotors.com](mailto:irasupport@tatamotors.com) or call 1800-209-8282.

# 2. Steps to Change Language While Using the Amazon Alexa Skill to English / Hindi / Hinglish

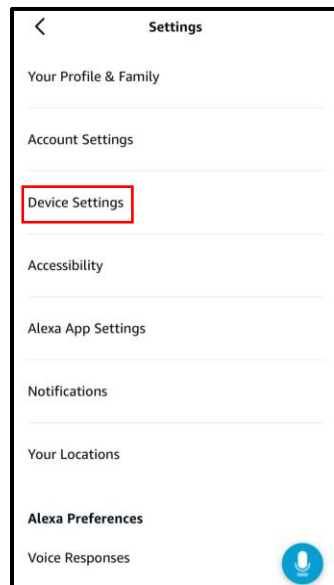

**Step 1:** Open the Amazon Alexa app, click on 'More'.

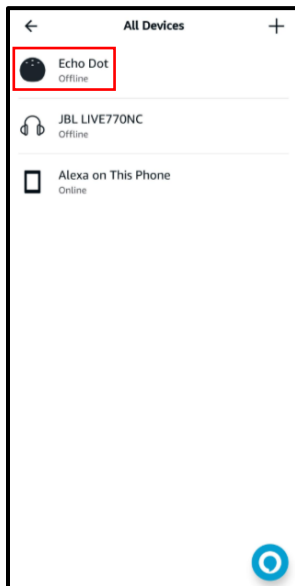

**Step 2:** Click on the ‘Settings’.

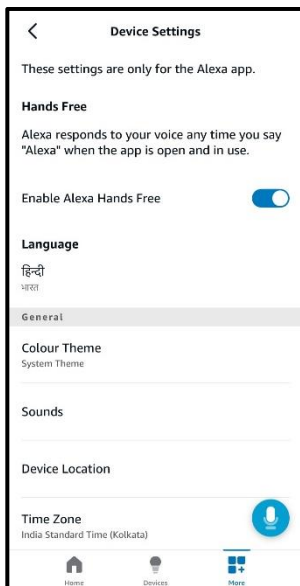

**Step 3:** Click on the ‘Device Settings’.

**Step 4:** Choose the Device for which the language is to be changed.

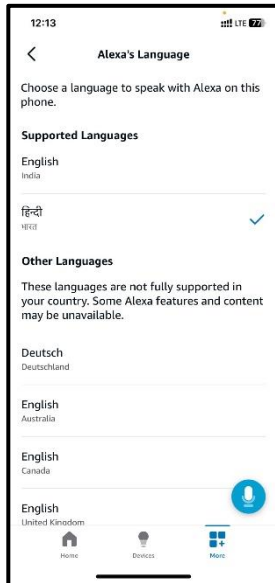

**Step 5:** Click on the 'Language' in the Device Settings menu.

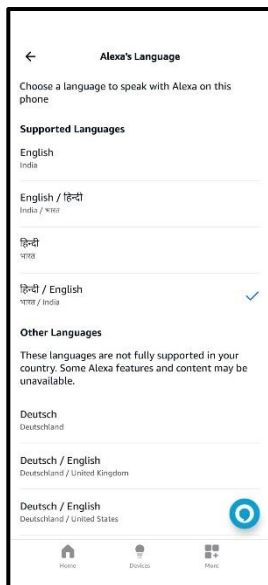

**Step 6:** Select any supported language from the list. Your device language will update automatically within a few seconds.

## iOS

## Android

**Note** (for Android users): In this manual, both हिन्दी/ English and English/ हिन्दी combinations are collectively referred to as Hinglish.

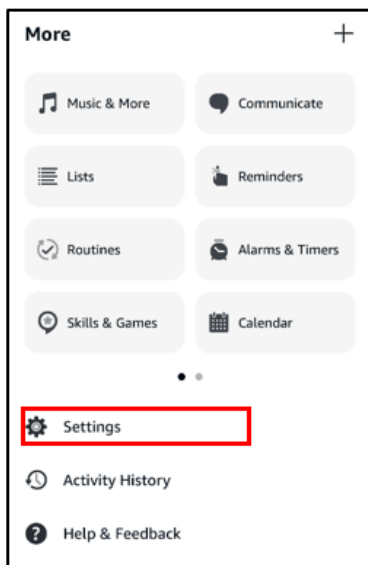

### 3. Steps to Setup Amazon Alexa Profile Voice ID for Using Remote Commands in English Language

**Note:** Before setting up the Voice ID in English Language, change your device language to English.

**Step 1:** Open the Amazon Alexa app, click on 'More'.

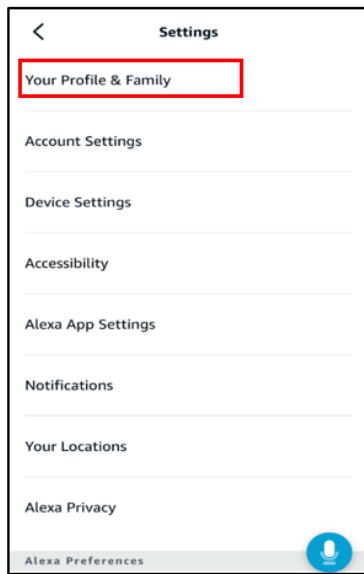

**Step 2:** Click on the 'Settings'.

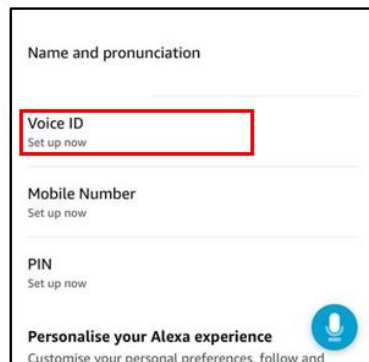

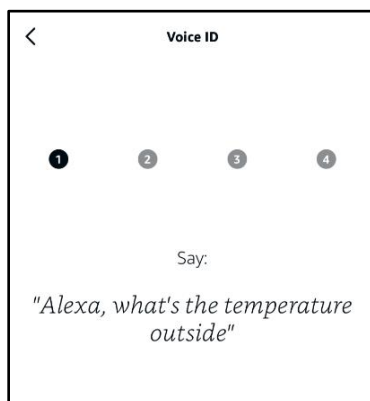

**Step 3:** Click on 'Your Profile & Family'.

**Step 4:** Then click on the 'Voice ID'.

**Step 5:** The Amazon Alexa app will guide you through a voice training process. This typically involves recording short phrases spoken by you. Speak clearly in a noise-free background for optimal results.

**Step 6:** Follow the app's instructions carefully and complete the entire training process.

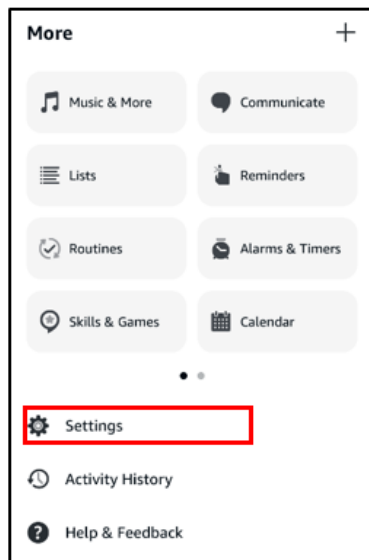

## 4. Steps to Setup Amazon Alexa Profile Voice ID for Using Remote Commands in Hindi/Hinglish Language

**Note:** Before setting up the Voice ID in Hindi language, change your device language to हिंदी/Hinglish.

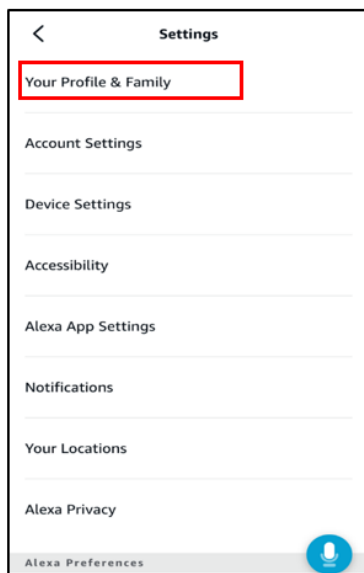

**Step 1:** Open the Amazon Alexa app, click on 'More'.

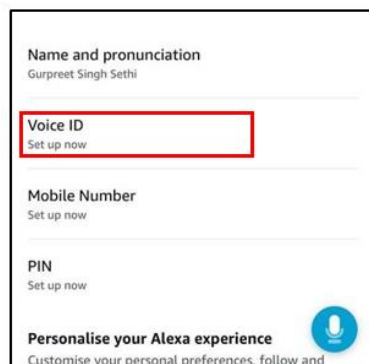

**Step 2:** Click on the 'Settings'.

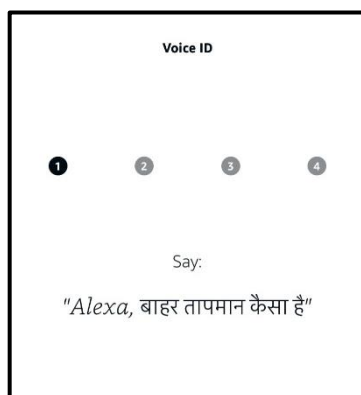

**Step 3:** Click on 'Your Profile & Family'.

**Step 4:** Then click on the 'Voice ID'.

**Step 5:** The Amazon Alexa app will guide you through a voice training process. This typically involves recording short phrases spoken by you. Speak clearly in a noise-free background for optimal results.

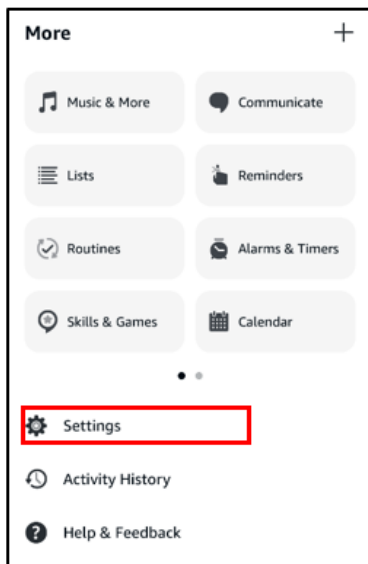

**Step 6:** Follow the app's instructions carefully and complete the entire training process.

## 5. Steps to Set Up/Change the Amazon Alexa Profile PIN

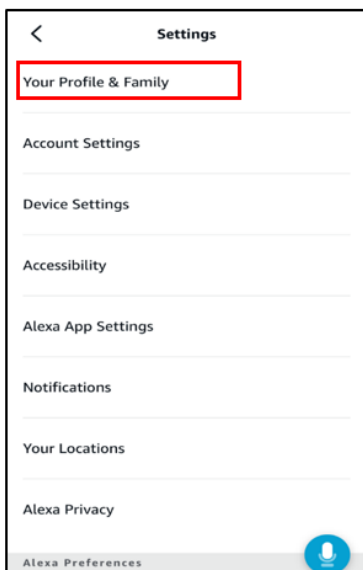

**Step 1:** Open the Amazon Alexa app, click on 'More'.

**Step 2:** Click on the 'Settings'.

**Step 3:** Click on 'Your Profile & Family'.

**Step 4:** Select the 'PIN' option.

The screenshot shows the 'Profile Information' screen in the Amazon Alexa app. It includes sections for 'Name and pronunciation', 'Voice ID', and 'Mobile Number'. The 'PIN' option is highlighted with a red box. Below the PIN section is a 'Personalise your Alexa experience' section with a 'Learn more' link and a 'Voice ID' icon. At the bottom are navigation icons for 'Home', 'Devices', and 'More'.

**Step 5:** Enter the OTP (One-Time Password) received on the mobile number registered with the Amazon Alexa app.

The screenshot shows the 'MOBILE NUMBER' verification screen. It prompts the user to 'Enter verification code' and provides instructions: 'To continue, complete this verification step. We've sent an OTP to the mobile number . Please enter it below to complete verification.' Below the instructions is a text input field and a 'CONTINUE' button. At the bottom, there is a 'Resend OTP' link.

**Step 6:** After the OTP verification, enter the PIN you wish to set and click on the ‘Save’ button.

## 6. Account Linking for Enabling the Tata Motors iRA Skill for Amazon Alexa

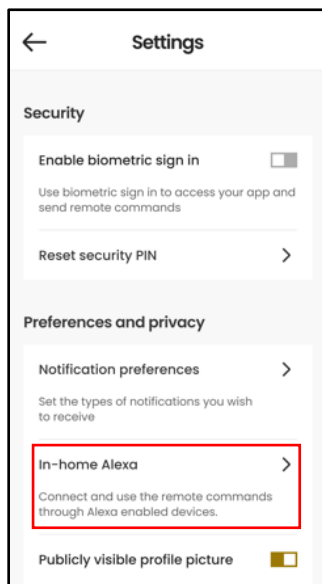

**Step 1:** To initiate account linking, open Tata Motors iRA 2.0 app, Click on the ☰ tab on the top left corner of the screen.

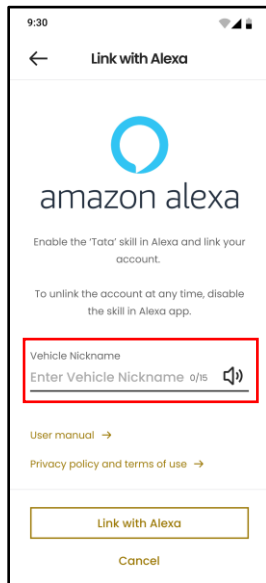

**Step 2:** Click on the Settings ⚙️ .

**Step 3:** Click on the “In-home Alexa” present under the Preferences and privacy section of the page.

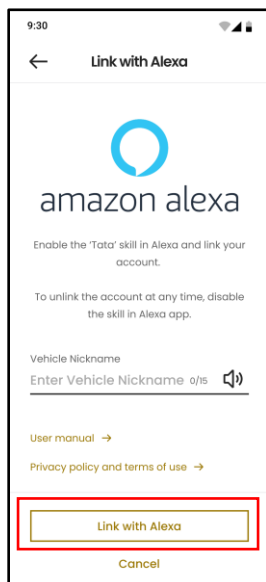

**Step 4:** Enter the vehicle nickname for the car selected in your iRA 2.0 mobile app. (If a user owns multiple vehicles and wishes to update the nickname of a vehicle other than the one currently selected, the user must switch to the desired vehicle, and then repeat the steps)

**Note:** For more details on Nickname, please refer to Section 9.

**Step 5:** Click on the “Link with Alexa”. (If the Amazon Alexa app is not installed on your mobile phone, you will be redirected to the Play Store/ App Store to install the Amazon Alexa app. Sign in or sign up in the Amazon Alexa app. Repeat the above steps.)

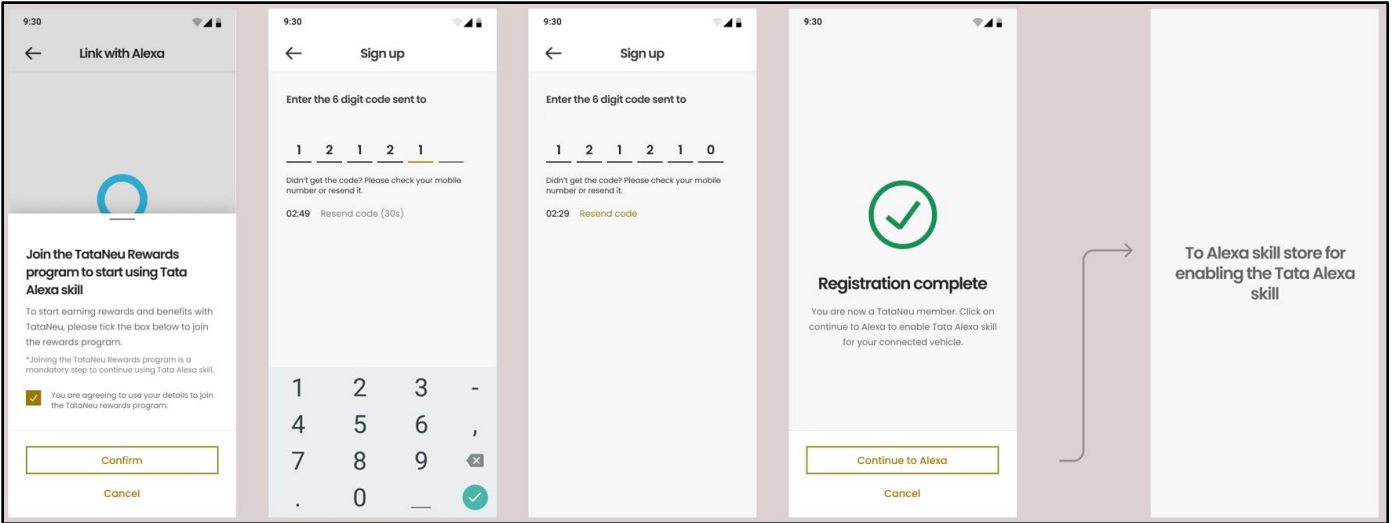

**For Loyal Customers-**

- The user will be redirected to the Amazon Alexa skill store for enabling the Tata Alexa skill for Amazon Alexa. (Go to Step 6)

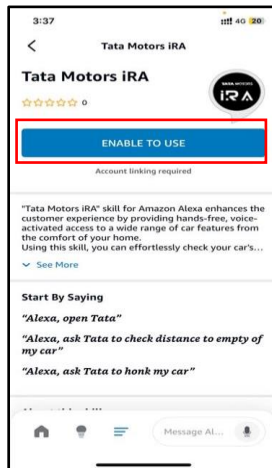

### For Non-Loyal Customers-

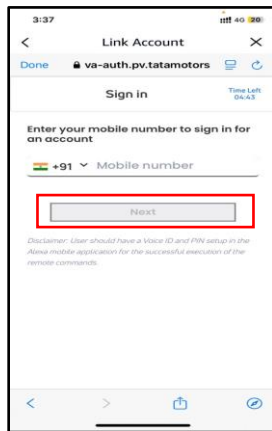

- Tick the checkbox if you agree to use your details to join the Tata Neu rewards program, then click on “Confirm” button.
- An OTP will be sent to the mobile number with which the user has logged in to the Tata Motors iRA 2.0 app . Please enter the OTP to continue.
- Once the OTP is verified, the registration will be completed. (Go to Step 6)

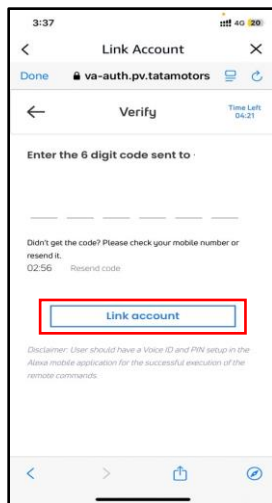

**Step 6:** Enable the skill in the Amazon Alexa mobile app. Click on the “Enable to Use” button.

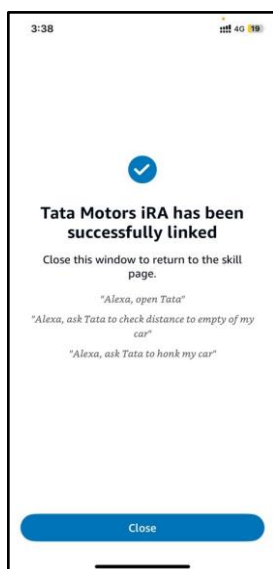

**Step 7:** A new page will open. Please enter the mobile number registered with Tata Motors iRA 2.0 app, then click the “Next” button to proceed.

**Step 8:** Enter the 6-digit OTP received on the number. Click on the “Link account” button.

**Step 9:** Once the OTP is verified. The skill will be linked successfully.

**NOTE -**

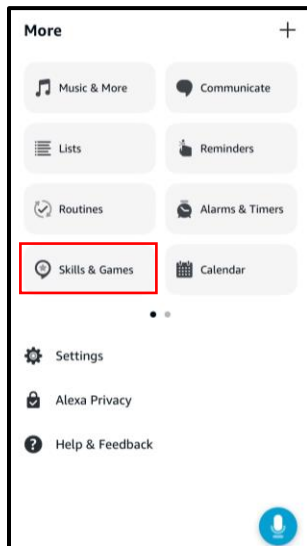

- For Android mobile phones, account linking is possible only with Android versions above 12.
- Attempting to link your account directly through the Amazon Alexa application may result in an error message stating 'User is not loyal.' If your mobile number is registered as a Loyal Customer within the Tata Digital Ecosystem, you will be able to link your account successfully.
- By linking your Tata Motors iRA 2.0 account with the Tata Motors iRA skill for Amazon Alexa, you consent to the storage and sharing of all vehicle data associated with your account. This data will be used to enhance your experience and provide personalized services. Your privacy and data security are important to us, and we ensure that your information is handled in accordance with TMPVL privacy policy.

## 7. Disabling the Tata Motors iRA Skill for Amazon Alexa

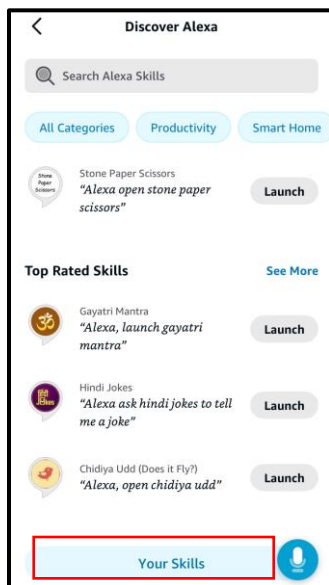

**Step 1:** Open the Amazon Alexa app on your mobile phone. Click on “More”.

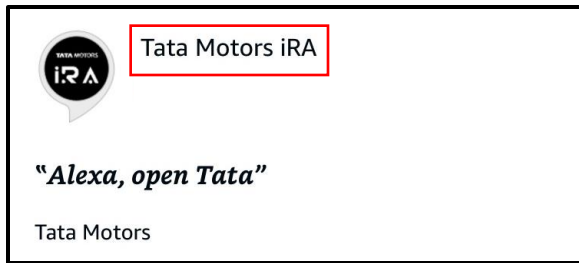

**Step 2:** Click on “Skills & Games”.

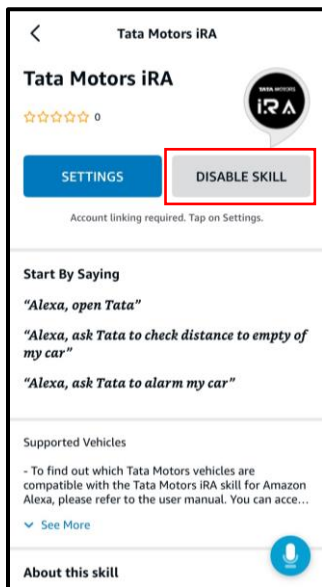

**Step 3:** Scroll down to the bottom of the page, click on “Your Skills” tab.

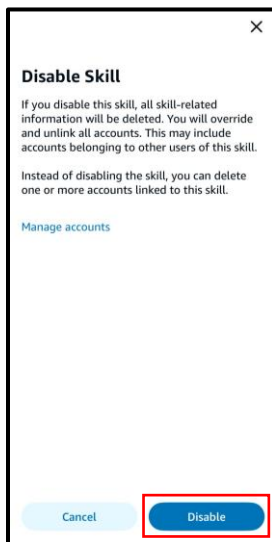

**Step 4:** In the “Your Skills” menu, go to the “Enabled” section and click on the “Tata Motors iRA” skill from the list of enabled skills.

**Step 5:** Click on the “Disable Skill” button.

**Step 6:** A screen will open, to confirm the skill disablement. Click on the “Disable” button.

**NOTE:** Once the skill is successfully disabled, TMPVL will no longer retain any data or information associated with the Tata Motors iRA skill.

## 8. Vehicle Discovery

- Please use the Vehicle Discovery feature to verify whether your Tata Motors vehicle is compatible with Tata Motors iRA skill.
- Please use the Vehicle Discovery feature whenever there is a change in the number of vehicles linked to your account. For example, if you purchase a new Tata Motors vehicle, this feature will help ensure your account reflects the updated vehicle list accurately.
- For explicit vehicle discovery post account linking, the supported command is “Alexa, ask Tata to discover my cars.”

## 9. Nickname (applicable in case of multiple vehicles associated with your account)

- The nickname-based vehicle selection feature—used when executing Remote Commands or checking Vehicle Status—will be available only if nicknames have been set for all Tata Motors iRA Alexa Skill-supported vehicles mapped to the user’s Tata Motors iRA 2.0 account. Additionally, this feature is supported only in the English language.
- The Nickname field should contain only alphabets and no special characters, numbers and spaces.
- After updating the vehicle nickname in the Tata Motors iRA 2.0 app, users must perform an explicit vehicle discovery (refer Section 8) to ensure the changes are reflected in the skill.

## 10. Utterances

### Get/Set/Reset Default Vehicle

#### Set Default Vehicle

*If you have multiple vehicles linked to your account, you can use this feature to set one of them as your default vehicle. This allows for quicker and more convenient access when executing commands. Alexa will confirm once your default vehicle has been successfully updated.*

Examples: January 2025

**Note:** To check the Monthly Health Report for a specific month and year, provide the month and year as custom values in English language for both English and Hindi/Hinglish utterances.

## 11. For Using In-Car Alexa Feature

To use the Tata Motors iRA skill with Amazon Alexa inside your car, begin by selecting the Amazon Alexa icon on your vehicle's infotainment system. Tap on "Sign In" and a QR code will appear on the screen. Scan this QR code using your mobile device, which will open the Amazon Alexa login page on your mobile device. Make sure to log in using the same Amazon account that you used to link the Tata Motors iRA skill. Once logged in, tap the Settings icon located at the bottom left corner of the infotainment screen and enable the Hands-Free mode. After completing the sign-in and configuration process successfully, you can activate Alexa in your car by simply saying "Alexa" followed by your command. For example, you can say, "Alexa, ask Tata to check distance to empty of my car".

**Note:** The remote command features described in Section 10.a of this document will not function when using in-car Alexa through the vehicle's infotainment system. These features require the vehicle to be in the ignition OFF state, which is not compatible with the active infotainment system required for Alexa operation.

## 12. Disclaimer

- Tata Motors may add, modify, or remove any features from time to time without prior notice.
- For any technical assistance related to the "Tata Motors iRA" skill for Amazon Alexa, please email [irasupport@tatamotors.com](mailto:irasupport@tatamotors.com) or call 1800-209-8282.
